

Would YOU Drink This Water?

Become **Better Informed** about Wellhead Protection

We are working cooperatively with **homeowners** to implement storm water Best Management Practices to help protect drinking water supplies.

Steps YOU can take to protect your drinking water:

- *Properly dispose of household products such as insecticides, pesticides, paints, used motor oil, etc. Don't pour them on the ground or into storm drains.
- *Use pesticides and fertilizers sparingly and in the recommend amounts.
- *Sweep up litter and debris from sidewalks, driveways, and parking lots, especially around storm drains. Compost or mulch yard waste.
- *Pick up pet waste and dispose of it properly.
- *Use a commercial car wash that treats or recycles its wastewater, or wash your car on your yard so the water infiltrates into the ground.
- *Dispose of oil filters, used auto fluids, and batteries at designated drop-off sites or recycling locations.
- *Don't over-water your lawn.
